PROFESSIONAL SUMMARY

Computer Science (Data Science) undergraduate with hands-on experience in AI, Machine Learning, Generative AI, and Full-Stack Development. Built intelligent applications leveraging Gemini AI, Groq APIs, predictive analytics, and data visualization. Experienced in developing AI-powered forecasting systems, resume analysis platforms, and real-time assistant applications. Passionate about solving real-world problems through data-driven and AI-enabled solutions.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES
- Python
- JavaScript
- SQL

AI / MACHINE LEARNING
- Machine Learning
- Generative AI (Gemini, Groq)
- Prompt Engineering
- Predictive Analytics
- Scikit-Learn
- Data Analysis

WEB DEVELOPMENT
- HTML5
- CSS3
- JavaScript
- Flask (Backend)
- REST APIs

DATABASES
- MySQL
- MongoDB

TOOLS & PLATFORMS
- Git & GitHub
- Postman
- AWS
- Power BI
- VS Code
- Google Maps API
- Gemini API
- Groq API

PROJECTS

01

Forecast IQ – AI Powered Data Forecasting & Insights

A web application that allows users to upload CSV files, automatically fetches columns, and uses Gemini AI to suggest the most relevant columns for future prediction. Integrated multiple ML models and Groq AI for insights explanation.

- Built with Python (Flask) as backend and modern frontend.
- Integrated Gemini AI (Groq) API for intelligent column suggestion.
- Implemented 3 ML models: Linear Regression, Random Forest, Decision Tree.
- Generated visual graphs and sent to Groq AI for natural language explanations.
- Helps users understand insights easily, even without technical knowledge.

Tech Stack: Python, Flask, Scikit-learn, Pandas, Groq API, Gemini API, Plotly, HTML, CSS, JavaScript

02

Smart Weather Assistant – Mini Alexa

A smart assistant that provides real-time weather updates, traffic information using Google Maps API, and personalized playlist recommendations based on the user's timeline and mood.

- Integrated Google Maps API to check live traffic and best routes.
- Provides weather updates with dynamic UI.
- Recommends fresh playlists based on time of day and user preferences.
- Integrated multiple APIs for a seamless assistant experience.

Tech Stack: Python, Flask, Google Maps API, OpenWeather API, Spotify API, HTML, CSS, JavaScript

03

QuizX – AI Resume Analyzer & Career Advisor

A web application where users upload their resume. Gemini AI analyzes it and generates personalized quiz questions. Based on answers, it predicts suitable roles and suggests new tech stacks to improve.

- Resume parsing and analysis using Gemini AI.
- Generates AI-powered quiz based on user profile.
- Predicts suitable job roles based on performance.
- Recommends new tech stacks to bridge the skill gap.

Tech Stack: Python, Flask, Gemini API, HTML, CSS, JavaScript, PDF Parsing

EDUCATION

Hyderabad Institute of Technology and Management
Bachelor of Technology (B.Tech)
Computer Science (Data Science)
Graduation: 2024 – 2028 (Expected)

RELEVANT COURSEWORK
- Data Structures & Algorithms
- Database Management Systems
- Machine Learning
- Artificial Intelligence
- Data Analytics
- Operating Systems
- Computer Networks

CERTIFICATIONS

CERTIFICATIONS
- Data Engineer at AWS
- JavaScript Certification
- Generative AI Workshop
- Microsoft: Visual Calculations
- Microsoft: Power BI

ACHIEVEMENTS
- Developed 3 end-to-end AI-powered web applications.
- Integrated multiple AI models including Gemini and Groq APIs.
- Built predictive analytics systems using Linear Regression, Random Forest, and Decision Trees.
- Applied Generative AI for career guidance and data interpretation.
- Certified in AWS Data Engineering and Microsoft Power BI.

SOFT SKILLS

Problem Solving | Communication | Teamwork | Research Thinking | Time Management
